

DEMENTIA CARE

Support Group

At Tall Oaks, we understand the heavy emotional toll that caring for a loved one poses on the caregiver and his or her extended family. That is why we host the Alzheimer's Association's Dementia Care Support Group. It is a safe place to share ideas and experiences, as well as to learn and ask questions in a caring, supportive atmosphere. Led by an Alzheimer's Association-trained facilitator, it is specifically designed to connect those dealing with a loved one's memory loss with others on the same journey.
